

EVERWRITE

HUMAN-AI EDUCATION

EVERWRITE is the pioneering
human-AI education company
founded by Dr David James Woo.

- **VISION STATEMENT:**
To support human-to-human communication
by human-to-computer interaction
- **MISSION STATEMENT:**
To teach people to use AI to support their
effort at every writing stage
- **TRAILBLAZING PROJECT:**
In addition to its educational solutions,
EVERWRITE proudly organizes *The Human-AI
Creative Writing Contest* for Hong Kong
Secondary Schools.

WHY CHOOSE US.

EVERWRITE enhances your school's curriculum and equips your students to become more *proficient English language writers* and *responsible users of AI*.

What do we offer?

EVERWRITE offers convenient workshops for ECA, OLE and other programs, designed with these features:

- **Evidence-based Curriculum:**
Regularly updated and grounded in the latest research, including our own
- **Experiential Learning:**
Filled with engaging, hands-on activities so that students learn by doing
- **Flexible Modules:**
Divided into units of work that you can select according to your needs.

CURRICULUM SCOPE AND SEQUENCE.

EVERWRITE's curriculum is designed to systematically enhance students' *English* and *AI literacy*.

Core curriculum elements:

- English Language

 - Writing Skills:

 - Students first explore a genre-based or process-based approach to writing HKDSE English language text types.

- AI Prompt Engineering Skills:

 - Students then explore AI and interaction patterns with ChatGPT and other chatbots. Students learn to write effective instructions for ChatGPT so it can support their writing efforts.

- Guided Practice:

 - Students apply their writing and prompt engineering skills to learn to write an HKDSE text type with chatbot support.

OUR CURRICULUM MODULE SEQUENCE:

- 1) Genre writing**
- 2) Process writing**
- 3) AI awareness**
- 4) Prompt engineering**
- 5) Guided practice**
- 6) Independent practice**
